THE STORY

OLD HISTORY, NEW BRILLIANCE

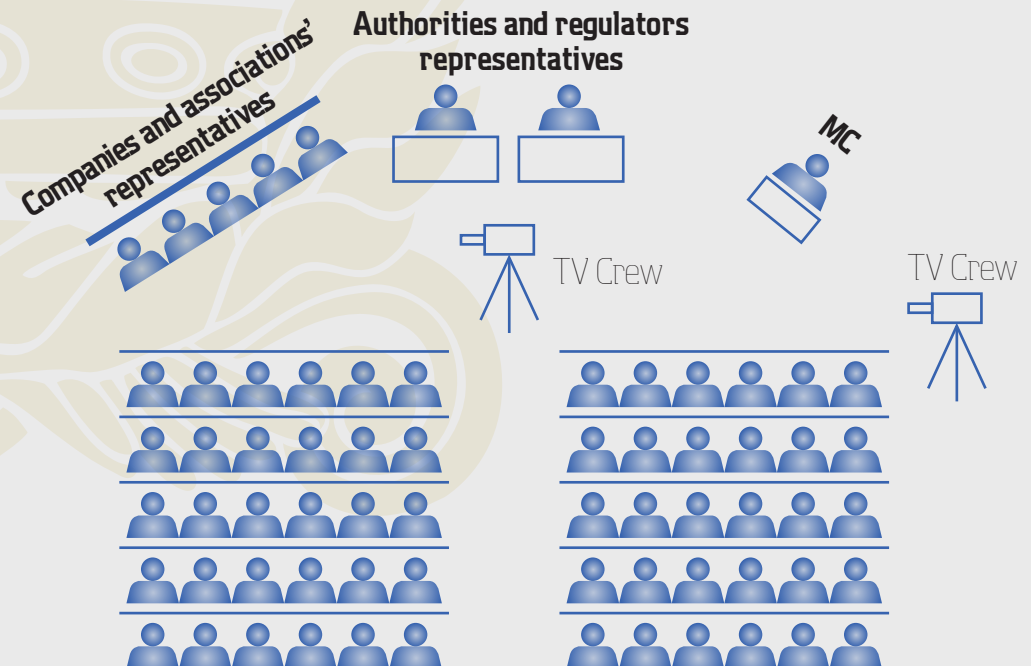

More than 100 years ago, Cantacuzino Castle in Bușteni was the place where the Romanian elite was gathering for crucial decisions on politics and economy. Businessmen and ministers, ambassadors and royal heads enjoyed the Romantic scenery of the Castle... now ready to welcome the present day leaders of Romania.

With its recently rediscovered radiance and glamour, Cantacuzino Castle is now the exquisite place for crucial decision to be made.

We are honored to invite you to be a part of the most substantial assembly dedicated to Romanian energy in 2015: Energy Strategy Summit.

EU representatives and ministers, ambassadors and captains of industry are gathering once again at the Cantacuzino Castle în Busteni.
