

# Utilities 4.0 – The new Generation of SCADA Systems

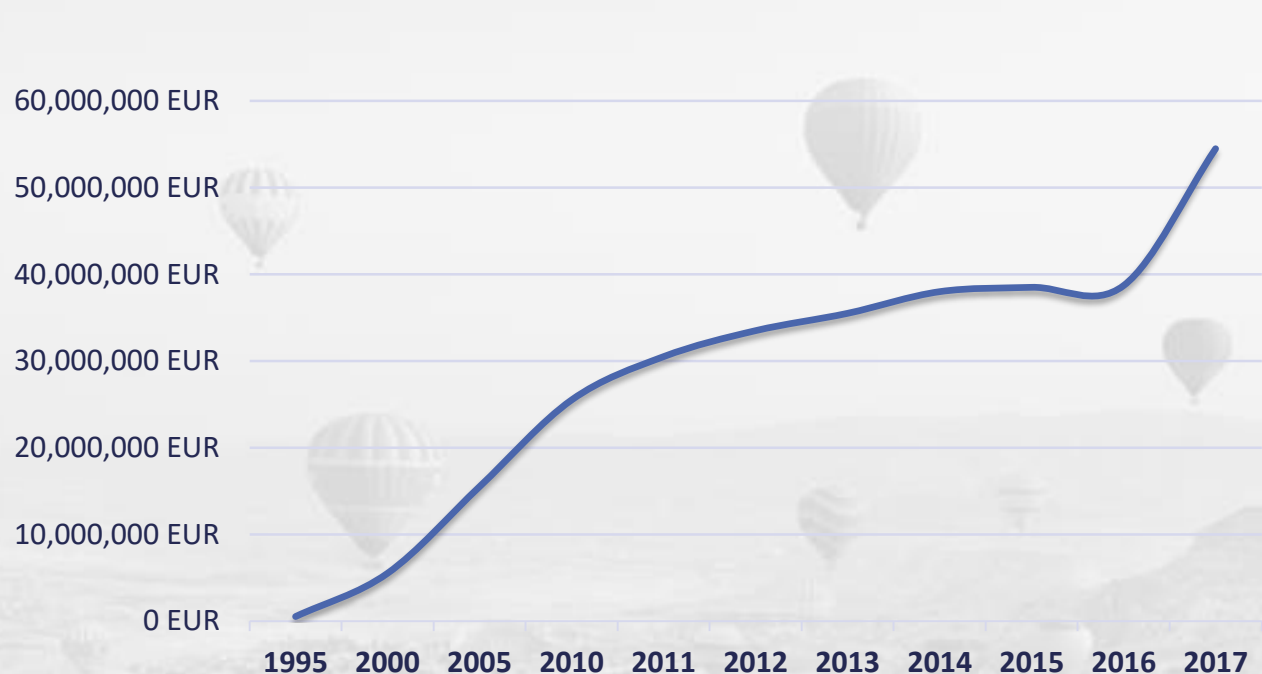

Tradition meets Innovation

April, 2019

# Background

- European group of companies dedicated to the Transport and Distribution (T&D) Market
- Manufacturing Low, Medium and High Voltage equipment
- Recently launched its 4<sup>th</sup> generation (IoT) SCADA
- Experienced team for deployment, commissioning and consulting for:
  - Data analytics applications (e.g. Osisoft PI)
  - SCADA EMS/DMS systems
  - Wind and photovoltaic parks
  - Smart Metering
  - Cogeneration and MicroGrids

# At a glance

\*consolidated for the Energy T&D Market for Eximprod Grup, Eximprod Power Systems, Inovium Digital Vision and Total Electric Automatizari

**25**  
years of experience

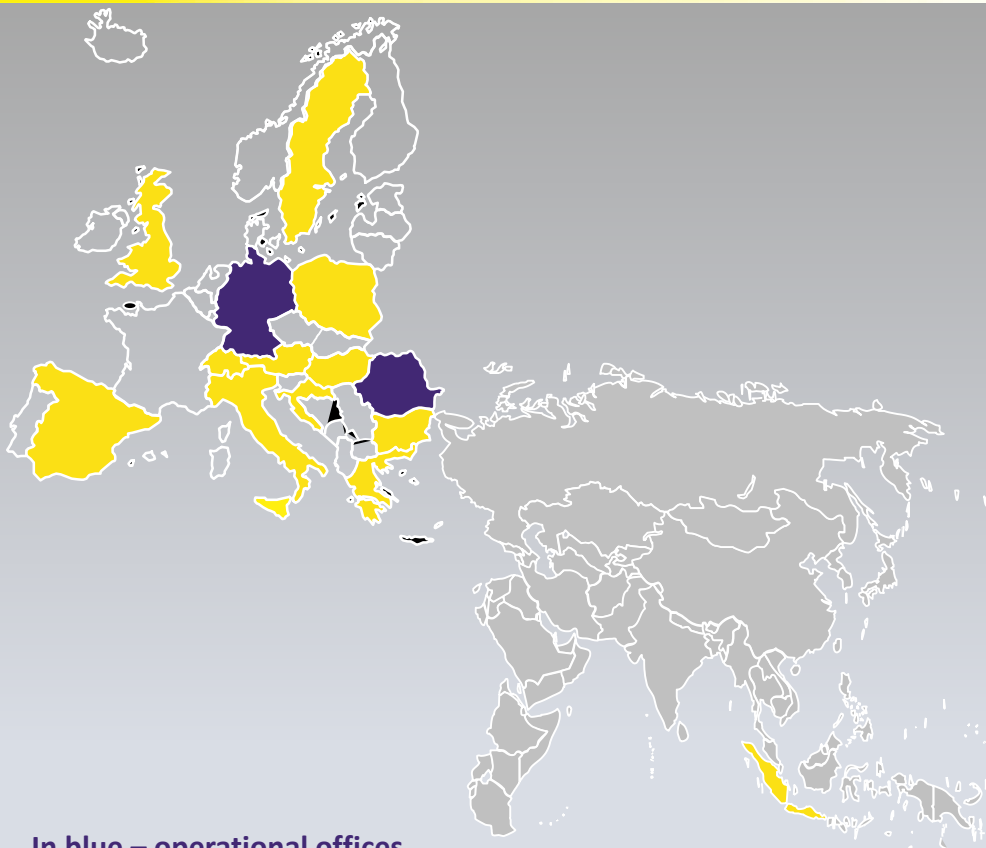

**450 +**  
employees

**300 +**  
T&D products

**250 +**  
EPC, Consulting and  
Electrical Design  
Projects

**25 +**  
patented  
inventions

# Presence in Europe and Asia

In blue – operational offices

**GERMANY** - 24 kV station post & railway insulators

**ITALY** - Medium Voltage Products and Equipment (ENEL International)

**POLAND** – Medium Voltage Fuses, Insulators

**SWEDEN** - 24 kV station post insulators

**SWITZERLAND** - 25 kV railway insulators

**NETHERLANDS** – Outdoor sensors for current and voltage

**BULGARIA** - 25 kV railway insulators and Medium Voltage Fuses

**INDONESIA** - Medium Voltage Fuses

# Eximprod T&D product highlights

# Major clients in T&D and Renewables

EPG  
EXIMPROD GRUP

# SCADA/IoT and Software Development Team

# Eximprod IT, OT and IoT

- Business Unit founded in 2005;
- Consolidated Turnover in 2017: +94.000.000 RON
- Headquarter: Bucharest, Romania; Engineering branches: Iasi, Bacau, Buzau;
- Main Projects & Reference Highlights:

SCADA DMS Systems, Substations (+200),  
Secondary Dist (+1000),  
MV switches and reclosers (+4000)

Consulting Services

Dispatch Center for DSO, Renewable Energies

Electric Design

Cogeneration Plant Dispatch

EPC for wind HV/MV Electrical Substation and Grid Connection

# Experience in multi-vendor environments

## IEDs and Protection Relays from:

## RTU/PLC/DCS/IT-OT Systems from:

## Communication Protocols

IEC 60870-5-101 / 104  
 IEC 61850  
 Modbus TCP/serial  
 DNP 3.0  
 IEC 60870-5-103  
 SPABus  
 OPC  
 Profibus  
 Proprietary protocols

# Eximprod in the Smart Grid Market

- Extensive High, Medium and Low Voltage equipment portfolio, including combined Current and Voltage Sensors for MV networks;
- State of the Art 4<sup>th</sup> generation IoT SCADA platform software development;
- Experienced Team for deployment, commissioning and consulting for :
  - Data analytics applications (e.g Osisoft PI);
  - SCADA EMS/DMS systems;
  - Wind and photovoltaic parks;
  - Smart Metering;
  - Smart Lighting;
  - Water treatment;
  - Cogeneration and MicroGrids;

**EPG**  
EXIMPROD GRUP

**Cooperation with CISCO**

# Current areas of partnership

- State of the Art 4<sup>th</sup> generation IoT SCADA platform software development;
- Complex LoRaWAN software development for Utilities and Oil&Gas;
- Industrial Switch and Routers for Energy Utilities;
- SCADA DMS/EMS Cybersecurity;

**EPG**  
EXIMPROD GRUP

# A Smart New World

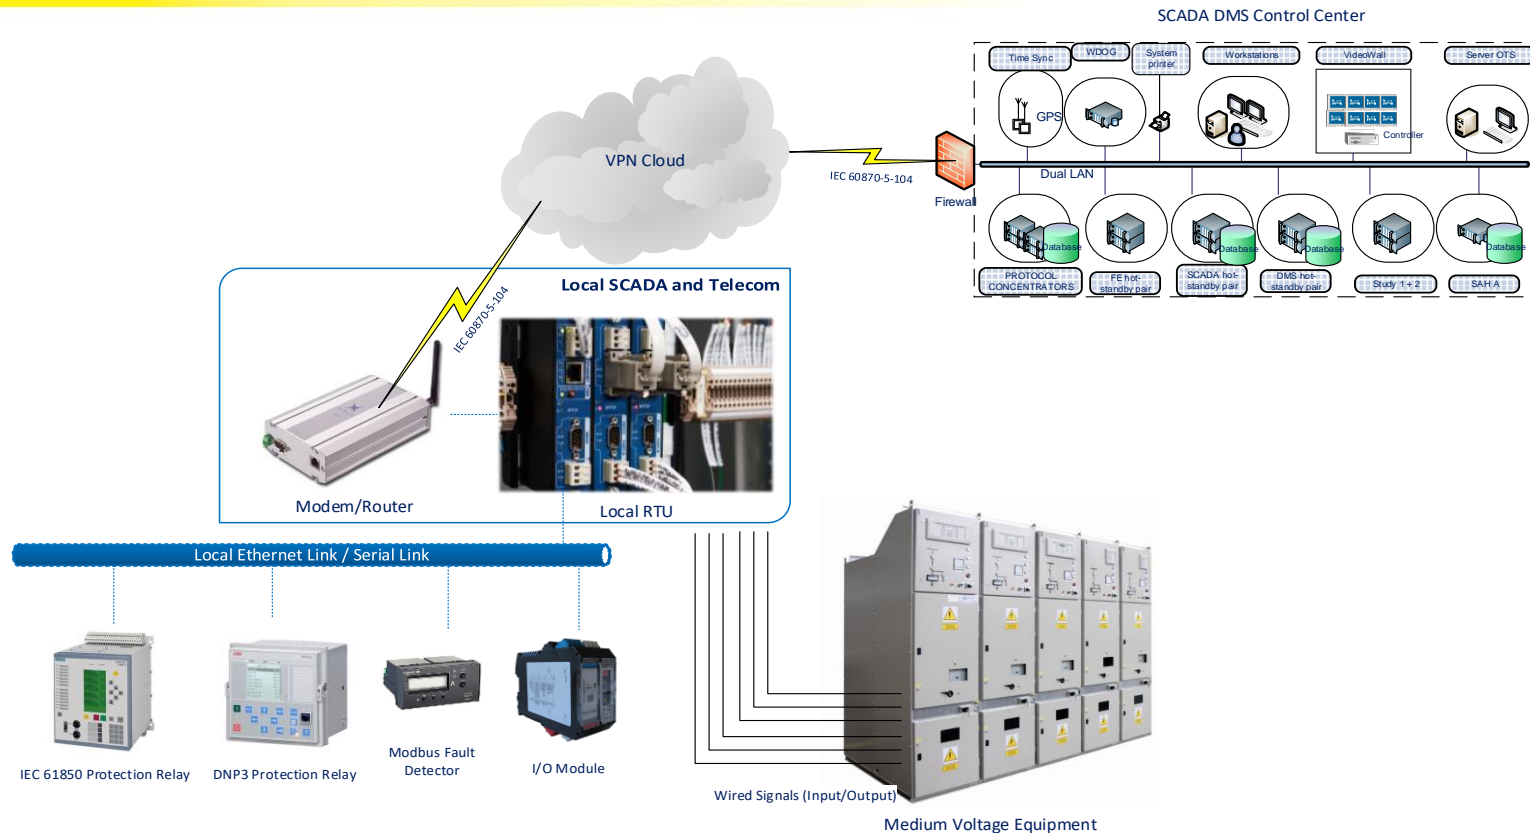

# Current SCADA Environment

- Multiple vendors and equipment of various age in the installation
- Software embedded on specific hardware
- Dedicated Hardware for each function
- Low Security on existing equipment/protocols
- Difficult/manual updates
- Long Life Span for equipment – over 10 years
- Software solutions depended on vendors

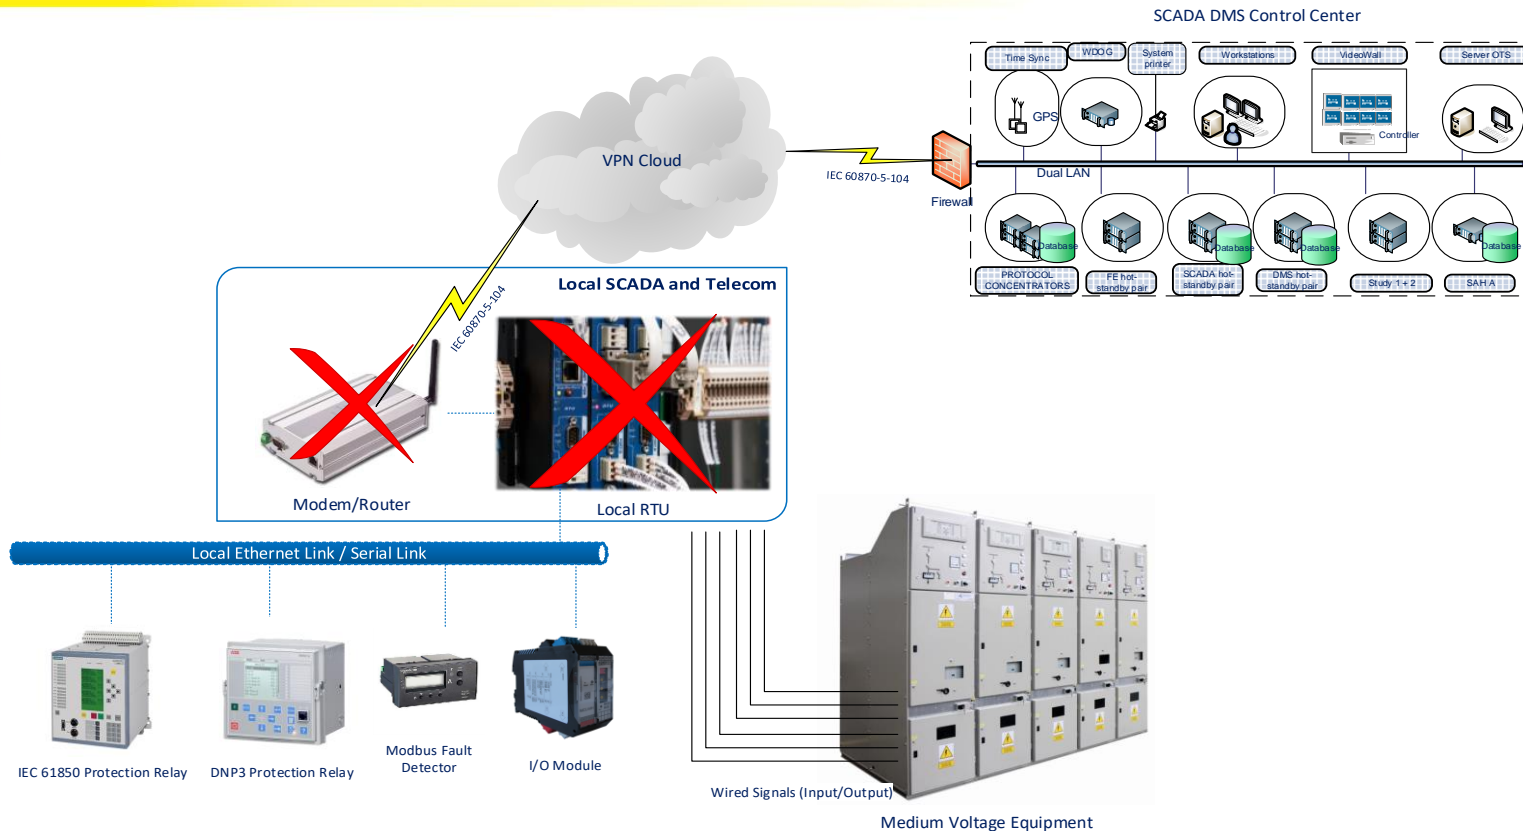

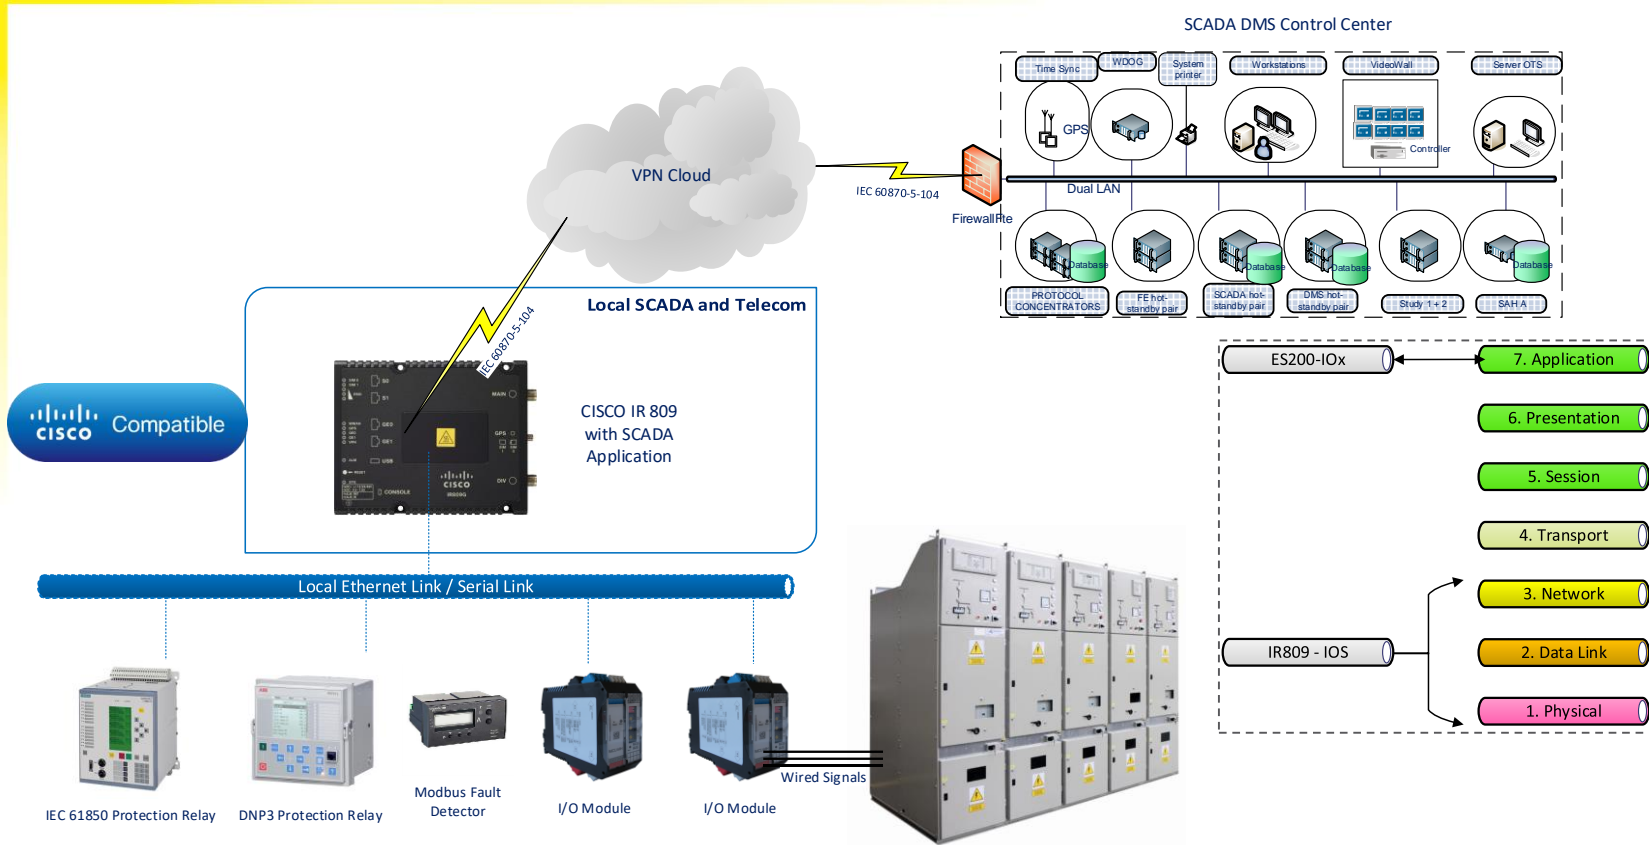

# Standard Distribution Automation

# Standard Distribution Automation(2)

# Our Digital Approach

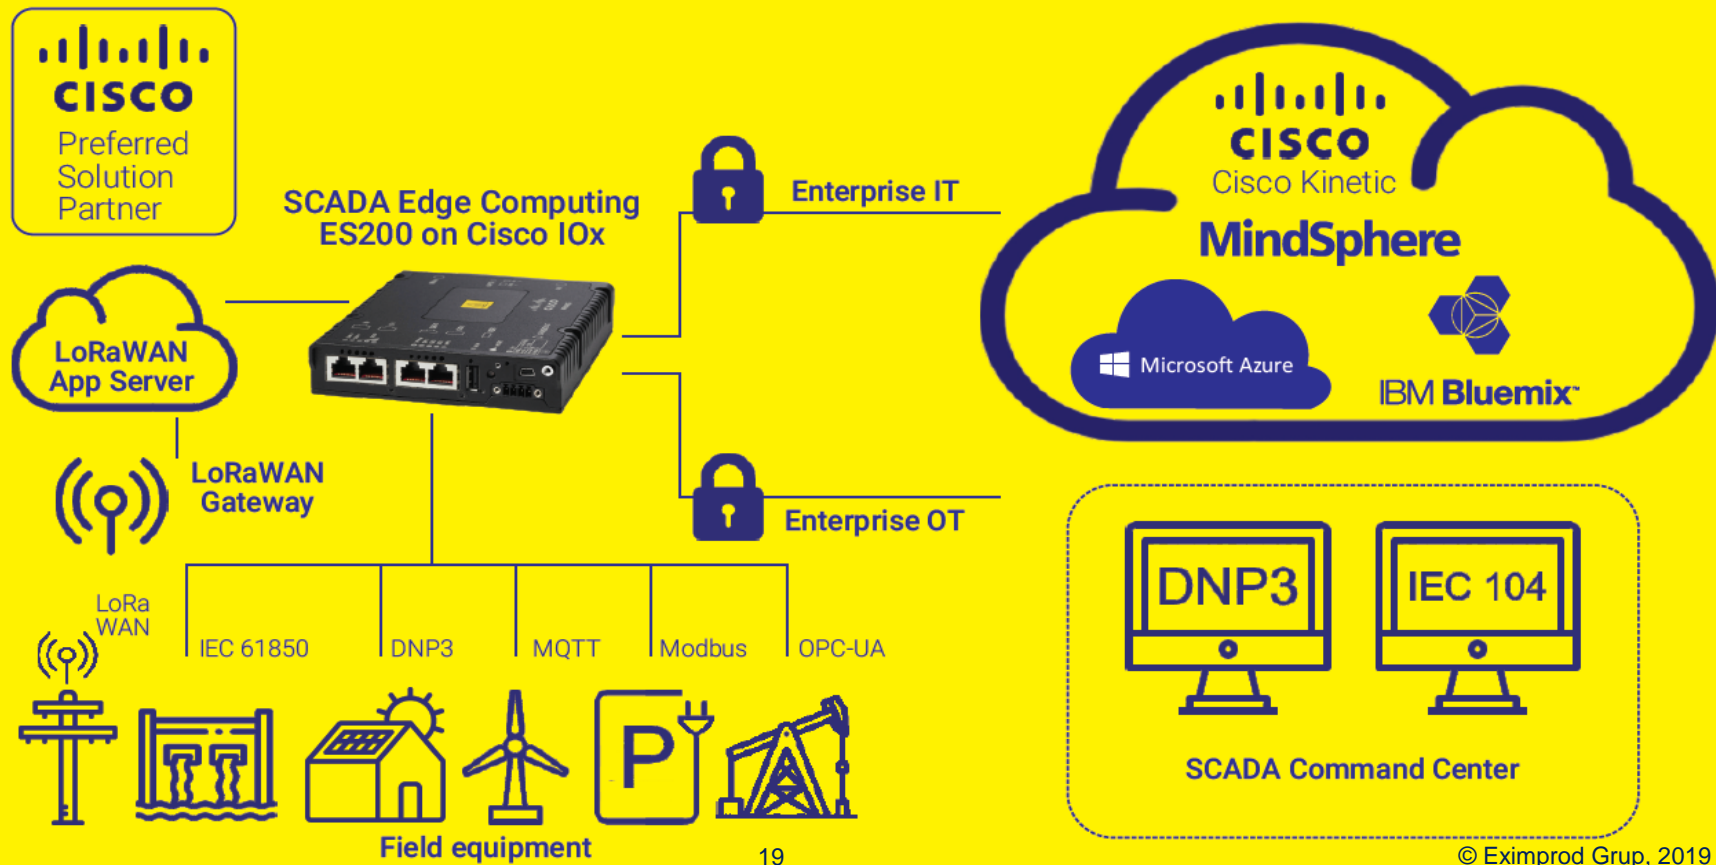

# ES200 – A new perspective

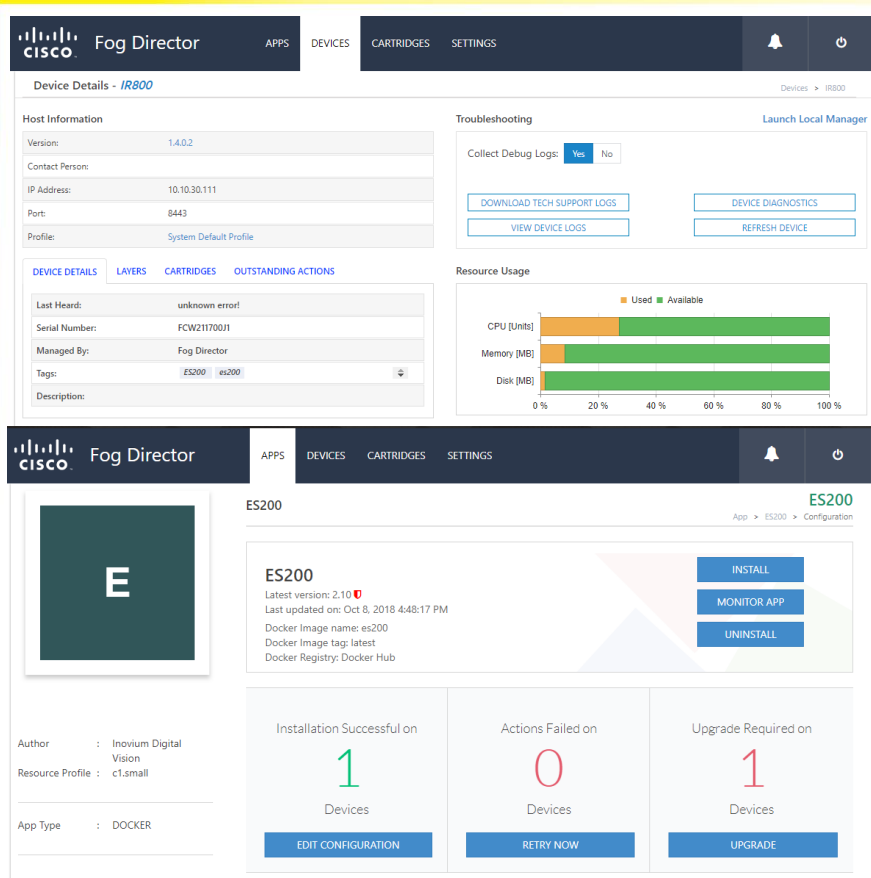

- Upgrade instead of Replace
- Software Defined Infrastructure in OT
- State of the art CISCO Security for SCADA
- Versatility - new functions available on a single device with multiple 3<sup>rd</sup> party apps
- Less hardware deployed (2-in-1 solution);
- Zero-touch installation and update management with FogDirector
- Multipoint data delivery

# ES200 Multi-purpose Use case

# ES200 Fog Director Integration

The screenshot displays the Cisco Fog Director web interface. The top navigation bar includes 'Fog Director', 'APPS', 'DEVICES', 'CARTRIDGES', and 'SETTINGS'. The main content area is divided into two sections: 'Device Details - IR800' and 'App - ES200 - Configuration'.

**Device Details - IR800**

- Host Information:** Version: 1.4.0.2, Contact Person, IP Address: 10.10.30.111, Port: 8443, Profile: System Default Profile.
- Troubleshooting:** Collect Debug Logs: Yes/No, DOWNLOAD TECH SUPPORT LOGS, DEVICE DIAGNOSTICS, VIEW DEVICE LOGS, REFRESH DEVICE.
- Resource Usage:** A bar chart showing CPU (Units), Memory (MB), and Disk (MB) usage. The chart indicates 'Used' (orange) and 'Available' (green) resources.
- Device Details:** Last Heard: unknown error!, Serial Number: FCW211700J1, Managed By: Fog Director, Tags: ES200, es200, Description.

**App - ES200 - Configuration**

- ES200 App Card:** Latest version: 2.10, Last updated on: Oct 8, 2018 4:48:17 PM, Docker Image name: es200, Docker Image tag: latest, Docker Registry: Docker Hub. Buttons: INSTALL, MONITOR APP, UNINSTALL.
- Summary Cards:**
  - Installation Successful on: 1 Devices (EDIT CONFIGURATION)
  - Actions Failed on: 0 Devices (RETRY NOW)
  - Upgrade Required on: 1 Devices (UPGRADE)

ES200 runs integrated with the Cisco Fog Director environment which allows state of the art manageability and integration with 3<sup>rd</sup> party Applications

# ES200 Reference Highlight

- Main ES200 End-Users

Main Distribution System Operator in Romania. ES200 deployed on Cisco IR809 since 2017 , using Field Network Director and Fog Director for Distribution Automation management

Adopted ES200 in Cisco IR 809 in 2018. 47 secondary substations due to be commissioned until January 2019.

Main private dispatching center for Renewables in Romania. ES200 is deployed to manage different local configurations, including OPC UA communication

- Ongoing PoC in : Latvia, Germany, Norway.
- Detailed Reference list is attached

EPG  
EXIMPROD GRUP

## Cooperation with Siemens

# Current areas of partnership

- Cooperation with Siemens in the SCADA field started in 2008 by supplying the Siemens Spectrum 4.6 SCADA EMS/DMS platform for E.ON Romania;
- Eximprod is Siemens Advanced Partner since 2012, when the program had been launched in Central and Eastern Europe;
- Eximprod and Siemens have a strong cooperation background in the High Voltage, Medium Voltage and SCADA areas;
- Eximprod is extending the current cooperation into the IoT/Industry – Mindsphere app to be launched soon;
- Eximprod is entering the MV sensors market along with Siemens – OEM manufacturing

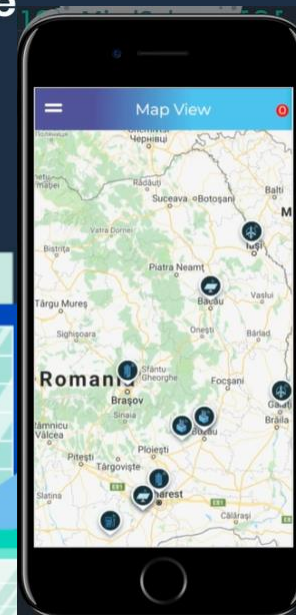

# Siemens Cooperation Highlights

- Cooperation with Siemens in manufacturing FCM OEM for Eximprod
- First unit ready for shipping in apr-may 2019

# Siemens Cooperation Highlights

## EPG Intelligent Facilities on Mindsphere

[https://inovium.ro/mindsphere\\_BMS/bms-video14-final.mp4](https://inovium.ro/mindsphere_BMS/bms-video14-final.mp4)

# Conclusions

- SCADA Systems are data sources to drive Business Value
- Security is foundational for SCADA
- New technologies enable new use-cases
