# Electrification Networking Automation

# Empowering the All Electric Society<sup>®</sup>

1

The All Electric Society describes **a world in which renewable energy is available worldwide as the primary type of energy** in sufficient quantities and in an entirely economical way.

2

This is based on the comprehensive **electrification, networking, and automation** of all sectors of the economy and infrastructure.

3

With our expertise in products, solutions, and digitalization, **Phoenix Contact is empowering industry and society to forge ahead with this transformation** as we move toward a sustainable world.
