

# R & D Center – Continental Automotive Romania Timisoara City, Romania

## CUSTOMER CHALLENGE

- Building a new facility for research & development taking into consideration:
  - energy efficiency
  - sustainability,
  - operation & maintenance costs optimization
  - continuity of services
  - utilities costs
  - losses control.

## SOLUTION

- Prisma Plus Distribution switchboards & meters connected to Ethernet network
- Busbar Electrical distribution with temperature monitoring sensors
- Building management systems including HVAC systems and electrical inputs

## CUSTOMER BENEFITS

- Reliability** of the electrical installation due to high quality products & solution
- High continuity of services**
- Proactivity for the maintenance staff** due to “the open dialogues” with the electrical equipment
- Mitigation of the fire risks**
